

FEDERAL GOVERNMENT ECOSYSTEM DIAGRAM			
Level	Narrative Example	Map Comparison	Diagram
100,000 Feet	The United States has a federal system of government (as distinct from a confederacy or unitary system) consisting of Federal and State Governments.		
50,000 Feet	The United States has a federal system of government (as distinct from a confederacy or unitary system) consisting of Federal and State Governments. There are three branches—the Executive Branch, the Legislative Branch and the Judicial Branch.		
25,000 Feet	The United States has a federal system of government consisting of Federal and State Governments. There are three branches of the Federal Government—the Executive Branch, the Legislative Branch and the Judicial Branch. The Executive Branch consists of the President, the Vice President, 15 Cabinet Departments, six Cabinet-level offices, and 137 independent agencies over which the President has dominion.		
10,000 Feet	The United States has a federal system of government consisting of Federal and State Governments. There are three branches of the Federal Government—the Executive Branch, the Legislative Branch and the Judicial Branch. The Executive Branch consists of the President, the Vice President, 15 Cabinet Departments, six Cabinet-level offices, and 137 independent agencies over which the President has dominion. Together, the Executive Branch protects the nation from foreign invasion, protects the environment, ensures product safety, provides grants to schools in low-income communities, and inspects meat, among other things.		
1,000 Feet	The United States has a federal system of government consisting of Federal and State Governments. There are three branches of the Federal Government—the Executive Branch, the Legislative Branch and the Judicial Branch. The Executive Branch consists of the President, the Vice President, 15 Cabinet Departments, six Cabinet-level offices, and 137 independent agencies over which the President has dominion. Together, the Executive Branch protects the nation from foreign invasion, protects the environment, ensures product safety, provides grants to schools in low-income communities, and inspects meat, among other things. Let's discuss to a moderate degree of detail each of 150+ departments, bureaus, divisions, agencies, offices, and independent agencies, starting with the Environmental Protection Agency (EPA). The EPA is responsible for administering, promulgating regulations and enforcing the seven major environmental statutes such as the Clean Air Act, the Clean Water Act, and the Toxic Substances Control Act.
