# Juliana Lara: A Professional Biography

Juliana Lara is an independent contractor for One Page Thinking. Juliana joined the team in January 2021 and is a third-year student from San Jose, Costa Rica. She is currently pursuing a Bachelor of Science in Business Administration with a concentration in Information Technology Management from Georgia Institute of Technology.

During her time at Georgia Institute of Technology, Juliana has participated in different organizations and activities. Since her freshman year, Juliana has been involved with the SHPE (Society of Hispanic Professional Engineers) Organization on campus. Last year, she was part of the Executive Board as the Junior Coordinator and was responsible for promoting Hispanic development and involvement in STEM careers by organizing professional and academic events.

She also spent her freshman year working part-time as a tutor and teacher assistant for the GT EXCEL Program in her Earth and Atmospherics Sciences and Technology Class. Juliana had the responsibility of teaching students programming skills and Microsoft Excel, PowerPoint, and Word as well as hosting review sessions three times a week for about 20 students.

Over the summer of 2019, Juliana had the opportunity to intern as a financial analyst in Banco Promerica. She learned the process of credit analysis, granted mortgages under managers' supervision, and attended weekly credit committee meetings with bank supervisors. In addition to her summer internship, Juliana worked as a part-time Leasing Agent for Landmark Properties during the year of 2020-2021 where she had the task of overseeing buyer and seller relationships from initial contact to purchase agreement, as well as collecting and inputting proper information into an 800+ client database and transaction management systems.

During the summer of 2021, Juliana worked as a Technical Operations intern in Comcast/NBC Universal where she had the task of creating a dashboard about the job count of the systems in the Comcast Big South region as well as updating a server daily using SQL Data Management, Excel, and Tableau.

Outside of her academic and professional life, Juliana enjoys spending time with her family and friends. She also enjoys exercising and running through the GT Campus and Midtown area.
